

# pbox

## The contactless kiosk

Wireless ordering & printing directly from phones

## Wireless ordering & instant printing

pbox allows Customers to order gifts or print photos instantly directly from their Phones / Tablets onto the printers connected to the box.

The solution is compatible with any type of phone: Apple and Android and does not imply the use of any pre-installed APP.

pbox creates a Wi-Fi hotspot, with Internet access to allow photos from Social or iCloud.

Ultra compact: no monitor, no touch.

100% Self-service: everything is done from the phone: connect, choose photos and print.

## Support of max 2 printers of any type

pbox is compatible with the following printers:

Dye-Sub printers:

DNP, HiTi , Kodak, Fuji, Mitsubishi.

Ink Jet printers:

Fuji DX-100 and DE-100, Epson D700 and D800.

pbox can manage up to two printers, configured to extend the formats offered, or to double the printing capacity.

## Easy to use and manage

pbox does not need a monitor and a keyboard to control its functions.

Just access its Admin pages, via a browser, from a PC or from a phone, to manage:

- the printing of orders after payment has been made,
- the cancellation of orders,
- reprinting of orders,
- and other functions.
